

BRITISH ADMIRAL GETS A REPRIMAND

Sir Percy Scott Sent an Insolent Message to Two Ships Of His Squadron.

KAISER'S VISIT THE OCCASION.

Told Them to Come in in Time "Look PRETTY." Palm More in Demand Than Gunney.

London, Nov. 10.—The German Imperial yacht Hohenzollern, which is bringing Emperor William and his party to visit England, and which was expected to enter Sandown bay, Isle of Wight, tonight, has been greatly delayed by a heavy fog and has been obliged to anchor with the cruiser escorting her for the night.

An extraordinary incident has come to light in connection with the visit of Emperor William. It is related that at the conclusion of the recent maneuvers the channel fleet and the ironclad squadron were ordered by the admiralty to repaint, etc., in honor of the German emperor. Upon receipt of this order, Sir Percy Scott, commander of the cruiser squadron, sent the following signal to two of his vessels:

"Paint work appears to be never in demand than gunnery, so you had better come in in time to look pretty by the time I get there."

Admiral Lord Charles Beresford, in a general order to the fleet respecting the instructions to repaint, refers to the signal sent out by Sir Percy Scott as "contemptuous in tone and unbecoming in character," and orders Sir Percy to have it stricken from the signal logs.

Sir Percy Scott and the members of his staff were summoned abroad. Admiral Beresford's flagship last Friday and the admiral's reprimand was read to them.

This affair has created consternation in the fleet and there is a probability that it will lead to the resignation of Sir Percy.

Butler says that the amount of gifts received in money during the year amounted to \$14,000, and on the subject of gifts adds:

"From the report of the treasurer, it will be seen that for the year ending June 30, 1907, the deficiency in the cost of maintaining the educational works of the university reached the large sum of \$53,195. This sum is exclusive of the interest charge of \$38,619. Naturally, this result is ground for grave concern. It points once more and with new emphasis to the undeniable fact that Columbia University is not sufficiently endowed to carry on the work which has been laid upon it. The cost of instruction is constantly increasing, and the number of students grows still larger. As was shown in detail in the last annual report, the salaries paid to the teaching staff are far from what they should be. Much that is urgently demanded is either not undertaken at all or is insufficiently provided for. It is within the mark to say that an additional free income of \$700,000 a year is an absolute necessity if the university is not to restrict its educational opportunities. No effort must be spared to provide this sum, for without it we must face grave embarrassment in the immediate future."

HEAD HUNTER RAIDS.

Japanese Camphor Factories in Formosa Suffer from Them.

Victoria, B. C., Nov. 10.—Japanese camphor factories in Formosa have been suffering from raids by head hunters, several Japanese officials having been killed and their heads carried off.

Punitive expeditions were being organized. Several camphor factories have been suspended owing to the raids.

All notices received by the Empress of India tell of the loss of the steamer Kasuga Maru off the Hakkaido coast, during a storm. Her crew of 19 and 81 passengers were lost in the nick of time by the steamer Tochi Maru. The steamer Wakamatsu Maru was reported recently to have a dredged junk, all being emaciated and in a pitiful condition. There were three corpses on board.

Advices have been received in Japan of remarkable volcanic eruptions in the Kuchinchatan peninsula. Mount Kuchinchatan, 10,000 feet, was visible for 20 miles and incandescent ashes have been falling in a radius of 200 miles.

Japanese papers complain of a boycott against Japanese goods instituted recently in Manila. Other advices state the Manila authorities have been subjecting Japanese goods and patent medicines to stringent inspection with the result that a large percentage has been rejected.

ATTEMPT TO MURDER.

Rejected Lover Shot Three Times at Girl and Then Commits Suicide.

Victoria, B. C., Nov. 10.—After making a desperate attempt to murder Susan Dods, a hospital nurse of the St. Joseph's hospital staff, tonight, Samuel Tote, a cigarmaker, committed suicide by cutting his throat. Tote, who arrived in Vancouver tonight at 7 o'clock, met Mrs. Dods, a companion nurse as they were leaving the hospital for church, and after making a renewed appeal for her to marry him, which she declined to consider, fired three shots at her with a revolver, none of the bullets taking effect. He then drew a razor and slashed her severely about the head and throat. Tote then slashed his windpipe with the razor, cutting his throat from ear to ear.

LOUISIANA CREEOLS.

Attempt to Put Them in Distinct Class With Special Jury Rights, Fails.

New Orleans, Nov. 10.—An attempt to have Louisiana Creoles placed in a class so distinct from other American citizens that they would have different jury rights failed yesterday in the su-

prem court. The record of the case was made public today.

T. M. Laborde, whose counsel claimed him to be a Creole, in appealing a forgery charge declared that his jury should have been composed either entirely or largely of Creoles. His counsel insisted that although Laborde lived with a French wife, 80 per cent of the population was Creole, nearly all his jurors were American. Creoles were defined as descendants of French and Spanish ancestry particularly French. They were said to hold more tenaciously to the racial characteristics and traditions of their ancestors than persons of other descent in this country.

The court did not recognize this distinction.

NASHVILLE PULPITS.

Nashville, Tenn., Nov. 10.—Nashville pulpits today were generally filled with delegates to the National W. C. T. U. convention, held here yesterday. A. S. Daugost, U. S. A. retired, addressed a large audience at the auditorium. His subject was "The Influence of the Sale of Liquor in the Army Canteen," and his argument was strongly against its restoration. He declared that many of the present army officials, fearing restoration were not in the mind during the canteen's existence and were ignorant of its influence.

GOMPERZ MAY HAVE SURPRISE.

Norfolk, Va., Nov. 10.—Following the arrival here today of President Samuel Gompers, the executive council of the American Federation of Labor held a meeting. The report of Mr. Gompers, which will be read when the federation convenes at the Jamestown exposition, and other matters of importance were discussed. It is intimated that Mr. Gompers has a surprise in store to which he will not allude at present. In address prior to the reading of his report, but those who may be acquainted with its import have nothing to say.

EXCAVATION WORK AT HER-CULNEUM TO BE RESUMED

Rome, Nov. 10.—The proposal to continue the work at Herculaneum, Her-culaneum has become so popular as a result of the efforts made by Charles Waldstein, professor of fine arts in King's college, Cambridge, England, that the Italian government is about to take the matter actively in hand.

Signor Rava, the minister of public instruction, upon whom the work would naturally fall, has agreed to bill to be presented to parliament which provides for an appropriation of \$100,000 for the purpose of removing the house forming the modern town of Resina, which is located over Herculaneum, and an appropriation of \$3,000 for the actual excavation work. This latter sum does not include the salaries of officials. The meanwhile, a commission, under the presidency of Prof. De Potra of the University of Naples, has undertaken preliminary studies for the commencement of the work.

Prof. Waldstein, contrary to what is held by the members of the present Italian cabinet, in favor of international co-operation to do the work, is anxious to implement his plan by setting forth what he considers necessary to insure the completion of the work. He will make known if carried out according to his method the excavation of Herculaneum will call for an expenditure of \$200,000. A contrary opinion is held by a majority of the Italian archaeologists, headed by Prof. Giacomo Bonita, the well known director of the excavations at the Roman forum, who declares that it will be impossible to spend more than \$1,000 a year if the work is done cleverly and without injury to the buried treasures.

Inward and Outward.

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane, cause catarrhal troubles, and endanger the whole system. Hood's Sarsaparilla eradicates all humors and cures all their effects. It's the great alternative and tonic medicine whose merit has been everywhere established.

Accept no substitute.

STOCK WATERING.

ALASKAN FAMILY CRESTS.

The curious objects shown herewith are totem poles erected by the Alaska Indians. The totem is a beast or bird

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely saved of stomach trouble and dyspepsia, I think a general composition, due to the various ingredients, must be the best. I have taken numerous other so-called remedies, but none have ever equalled the Cascarets. I have a day job and all the others I have taken made me a year older."

James Malone, 19 Mercury St., Jersey City, N. J.
